

Blackbaud is Delivering Corporate Donations to Nonprofits Faster than Ever with Expedited Giving+

August 11, 2026

New Capabilities Leverage Blackbaud Integrated Payments and the Blackbaud Verified Network to Help Nonprofits Access Critical Funding in Minutes

CHARLESTON, S.C., Aug. 11, 2026 /PRNewswire/ -- Blackbaud (NASDAQ: BLKB), the world's leading provider of AI-powered solutions for social impact, today announced the expanded availability of Expedited Giving and Expedited Giving+ within its [YourCause® from Blackbaud®](#) suite of corporate social responsibility (CSR) and employee engagement solutions. Expedited Giving delivers corporate and employee donations to nonprofits 90% faster than the industry average, while Expedited Giving+ is the industry's fastest disbursement of corporate and employee giving, enabling direct-to-nonprofit donations in near real time.

These innovations reflect Blackbaud's continued focus on helping the social impact sector operate at the speed of need, ensuring nonprofits can access critical funding faster amid ongoing economic pressure and shifting donor dynamics. [Recent data from the Blackbaud Institute](#) suggests that while overall charitable giving remains resilient, many organizations, especially smaller nonprofits, are facing increased funding challenges.

"Speed matters when it comes to funding impact," said Dale Strange, president, Corporate Impact, Blackbaud. "By accelerating how donations move from companies and their employees to nonprofits, we're helping ensure that generosity translates into action exactly when it's needed most. At the same time, this innovation helps companies streamline administration, strengthen employee engagement and demonstrate the timely impact of their social responsibility efforts."

Blackbaud is uniquely positioned to support both ends of this social impact ecosystem, connecting corporate impact and social impact in ways that no other provider can, supporting the company's vision to unleash resources at the speed of need. As both a creator and consumer of cutting-edge AI tools, Blackbaud is leveraging AI in product development to increase the pace of innovation, delivering these meaningful capabilities to customers faster than ever to accelerate social impact outcomes.

Two Powerful Capabilities to Accelerate Impact

Blackbaud's innovation introduces two distinct, but complementary methods to modernize the corporate giving experience. By connecting the backend systems that power CSR programs, nonprofit fundraising, and donation disbursement, Blackbaud is able to dramatically increase the speed and ease with which funds are transferred from corporate employees to nonprofits.

EXPEDITED GIVING

Expedited Giving accelerates donation delivery for nonprofits connected through the [Blackbaud Verified Network](#), enabling faster disbursement of eligible funds for US organizations registered for ACH payments. This speeds up traditional corporate and employee donation disbursements by 90% compared to industry averages, which range from 30-90+ days. It also reduces manual processing and administrative delays for nonprofits. Currently, more than 100,000 nonprofits are connected through the network and can receive funds via ACH digital disbursement.

EXPEDITED GIVING+

Building on this foundation, Expedited Giving+ is now dramatically changing the disbursement landscape, providing exponential speed through a direct connection to [Blackbaud Integrated Payments](#), the company's AI-powered payment processing solution for nonprofits.

This accelerates and simplifies the processing of corporate employee donations by:

- Enabling delivery of employee digital donations in as little as 10 minutes—the industry's fastest option, disbursing funds in minutes versus days or even months
- Providing a seamless, real-time payment experience for participating nonprofit organizations
- Creating a connected experience for Blackbaud nonprofit customers by delivering corporate employee donations originated in YourCause directly into their existing Blackbaud Integrated Payments solution
- Enhancing transparency between the employee donor and the nonprofit as the tax receipt comes directly from the nonprofit and the nonprofit is reflected on the employee's bank statement

Expedited Giving and Expedited Giving+ are already helping move funds faster across the social impact ecosystem, with strong momentum from pilot participation and early customer adoption.

Delivering Impact at Scale

Powered by the [Blackbaud Verified Network](#), which connects corporations and nonprofits through a shared infrastructure, Expedited Giving simplifies data exchange and reduces administrative burden across the ecosystem.

With more than ten million employees using YourCause from Blackbaud, these innovations bring unprecedented scale to fast, efficient corporate philanthropy.

Expedited Giving and Expedited Giving+ are part of Blackbaud's continued investment in platform innovation—anchored in connected data, intelligent infrastructure, and purpose-built payments—to help organizations maximize their impact. By reducing friction and accelerating access to funds, Blackbaud is helping nonprofits navigate a more complex funding environment while empowering companies and their employees to give with greater immediacy and confidence.

Learn More

Nonprofits interested in taking advantage of these accelerated donation disbursement features can claim their free charity profile on the [Blackbaud Verified Network](#) and enable ACH transactions. Blackbaud nonprofit customers using Blackbaud Integrated Payments can additionally enable

Expedited Giving+ after setting up a Blackbaud Verified Network profile.
